

One

(adapted from One by U2)

Do you feel better?
And does it really matter?
Is it easier on you now
You got someone to behold?

You say, one love, one life
It's one need in the night
One love
Get to share it
Stays with you darling
If you take care for it

Did I excite you?
Or leave a hole in your heart?
You act like you always had love
But it's me you that you lust

Well, it's not too late, tonight
To draw the past out into the light
We're one, and we're the same
We get to hold each other, hold each other

One (One)
One (Oh, oh, one)
One (One, oh-oh)
One (Oh-oh)

Have you come here looking for love?
Have you come to help the lonely hearted?
Have you come here to play games?
But I ain't got time for that

Well, did I ask enough? More than too much?
You gave me everything, now that's all I need
We're one and we're the same
See we, kiss each other then we do it again

You say, love is heaven, love is a higher ground
Love is heaven, love is a higher ground
You ask for me to enter and you make me run
But I can keep catching on to what you've got
'Cause all you got is love

One love, one life
One soul, you have to do what you should
One life with each other
Angels and barmaids
One life and we're the same
We get to hold each other, hold each other

One
One
One
One
One
One

One love, one love
