

Ten Good Years

This Romeo is bleeding
You can see his blood
There is a lot feeling
This old doc has kicked up
He's been standing in the rain
Only God knows for how long
He's sung a thousand songs
There is no more he can give

Spend ten good years with the old doc
And you will be his wonderwall
'cause maybe you're the one who can save him
From this cold and lonely world
Hey, hey, hey
That's what I say

Ten good years is what the doc asks for
Then my girl shall start your life again
With memories and treasures to behold
You'll be satisfied with your lot
You'll cruise in the LOVE4U
And Sun bath on the riverside penthouse

I then remember the Stones
Mick says "you can't always get what you want"
But if one tries hard
One might just get there
The old doc doesn't make empty promises
His memoir will be an absolute killer

What you babes don't know
Is that the story is co-written with a ghost writer
A pro who's spend nearly 2 years
And hundreds of hours
And paid ten of thousand dollars
To do it right

Spend ten good years with the old doc
And you will be his wonderwall
'cause maybe you're the one who can save him
From this cold and lonely world
Hey, hey, hey
That's what I say

They say all good things take time
And when it's finally done
There'll be paperbacks, E-book and Audio-book
That's not counting foreign translations
A Mandarin version will reach the billions
And I'll be laughing all the way to the stars

The old doc had stood the test of time
And I love my life
I'm magical
I'm beautiful
I'm free
So take a ride for ten good years

We'll travel the world
Ride on every rail track
Frollicking on every cruise
Roam every forest
Dive every ocean
And taste every food

Ten good years is what the doc asks for
Then my girl shall start your life again
So you can get on with your search, baby
And I can get on with mine
Maybe someday we will find
That it wasn't really wasted time

The old doc doesn't make empty promises
So start the journey
And join him for the Canada and Alaska Adventure
And watch this space

(adapted from various songs)
